ROLLTROT²[®]

The perfect accessory for your bar cover, and your comfort.

An Albigès innovation, the ROLLTROT²[®] self-propelled motorisation allows you to enjoy your pool effortlessly for a reasonable price.

label
observeurdudesign¹²

1 Ultra easy

It simply slots on to all of your EASY bar covers, to the right and to the left hand side.

Fast

The rolling up time on a 4 x 8 m pool is less than 2 and a half minutes.

Easily adaptable⁽¹⁾

to other makes of bar covers.

Unique design

ROLLTROT²[®] has been awarded the 2012 design label by the Observer.

2 Smart handle

Strengthened ergonomic transport handle for comfortable handling. Hollow, the cabled remote control fits into it.

3 Stand-alone

Its battery integrated into the box recharges on the mains even after long periods of inactivity. Charger with anti-corrosion protection.

4 Silent

Large diameter hollow wheels with soft tyres.

5 Charge indicators

A led is built into the charger to indicate the battery's charge status (red: charging/green: charged) and the charger's operation.

TOUCH System

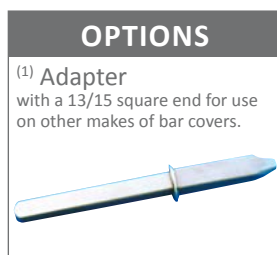

Guarantees constant pressure on the rear wheels and eliminates jolts.

6 REVERSE Function

Whatever the cover position during roll-up, the ROLLTROT²[®] can be removed very easily by pressing on "REVERSE" button.
